Rene,

Thnks for getting back to me. Sorry for the confusion.

I should have been more general - i.e., the PPT slides that go to the depiction and interpretation of the core samples and the related narrative in the pilot report.

Jim, have a question on your recent request. Not sure what slide 29 you refer to since the PPT ends in 29. But I am reading away even if I do not find you.

" I have asked Ed to take a look at the materials in the Report and in the PPT presentation that involve the cores and their interpretation - e.g., starting with slide 29 et seq"
